BADMINTON CLUB

DHANNY OUD

ABOUT ME

I am a passionate badminton coach based in central Auckland who aims to develop and grow the love of the sport. I have a long history of badminton since 7 years old and have represented nationally and internationally for 25+ years.

My expertise expands across all disciplines of badminton, age, ability and gender.

My coaching style is realistic and functional. I believe that learning tactics and skills during realistic situations, is the best way for players to better develop their game.

My coaching philosophy is that everyone deserves to be better at something and that means developing an athlete as a whole, not just purely technique. As coaches we must be the "how" someone can be better.
